Project: Yayoi Kusama Website

I would like to make a website with full screen images to showcase Kusama's work. I imagine it as a multipage website with images that cycle through as you click them, highlighting information about Kusama's work with descriptions. I want this to look like a portfolio website showing Kusama's work. Kusama not only has an extensive Wikipedia article, but there is an abundance of images of her work on the internet.

1. Overview: Summary of Kusama's life, works, and technique
2. Early life: Descriptions of Kusama's childhood and young adult life
3. Career in New York: 1957 – 1972
4. Return to Japan: 1973 – 1977
5. Revival: 1980s – present
6. Work Images
7. Sources
